

This is Tobi. Tobi would like to join a Sport club or a class trip; unfortunately his parents can't pay that, because they don't earn enough money.

His friend Rudi told him that the costs and expenses of the class trips can be paid from the education package **Bildungspaket**.

This is not all! With the education package even more can be paid! You just easily have to apply an application at the responsible Sozialamt or at the responsible Jobcenter, and get the benefits.

What are the **requirements** that must be fulfilled in order that Tobi can use the education package?

Tobi's parents must get ...

- **Jobless benefit II** (Arbeitslosengeld II)
- **Social benefit** (Sozialgeld)
- **Housing benefit** (Wohngeld)
- **Children benefit** (Kinderzuschlag)
- **Welfare benefit** (Sozialhilfe)
- **Asylum benefit** (Asylleistungen)

Then Tobi is entitled to the education package.

And what can Tobi apply for?

Leisure time, Culture and sport: the fees of sports club and other activities like art, culture and other leisure time will be paid. For that he gets to 10 euros each month.

Having lunch in preschool, school and nursery school: Tobi has to pay only 1 euro each day. And the rest he will get them as subsidy.

School supplies: Tobi will get 70 euros in 01st August and 30 euros in 01st February for school items.

Learning support: when Tobi's schoolwork has deteriorated or gets expelled from school. Tobi is entitled into learning support.

Day trips: the costs of day trips in preschool or costs of class or school hike will be paid. Tobi must bring only his pocket money.

Class trips: the costs of class trips will be paid from the education package **Bildungspaket**. Just the pocket money Tobi must bring it with.

School transportation: to drive to nearest school Tobi can get benefits for that too, if the costs aren't paid from Landkreis.

And how this will be paid?

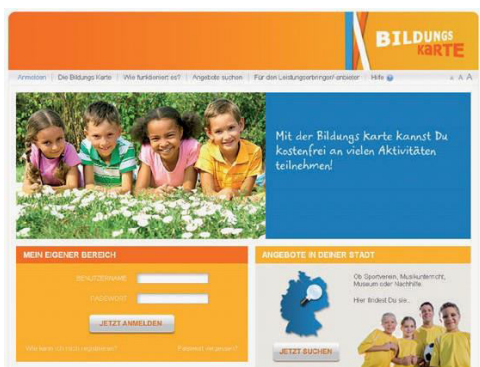

School Supplies, class trips and School transportation will be directly paid.

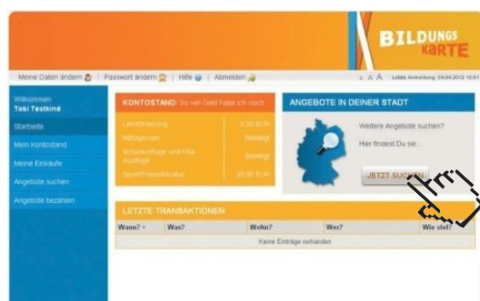

And for having lunch, learning support, day trips, culture, Sport and leisure time Tobi will get with an approval his own education card **Bildungskarte** and own card number.

Tobi will show this education card to the club and the learning supporter. And he can use the card number to invoice and bill easily the benefits on www.bildungs-karte.org.

With the access data like (username and password) which written in the letter that he got with the card, also he can check what he has been approved and how much he still has like Club fees or other possibilities. And when the provider can't bill or invoice, then Tobi himself can do that online too.

Please take a look here, you can find here all clubs, learning supporters and other providers. which you may use them too.

www.bildungs-karte.org

And every day there is something new! Just click on "ANGEBOTE SUCHEN" and choose the Landkreis *Mecklenburgische Seenplatte*.
